

NATURALLY MADE SOAPS

PRESS RELEASE - November 1st 2009

EXCITING NEW WEBSITE FROM NATURALLY MADE SOAPS - NOW LIVE!

Naturally Made Soaps is a unique new small business hand making wonderful natural soap inspired by nature using the traditional cold process methods and ingredients from both England and Portugal.

The recipes are the creation of owner Ishbel Ramsay and are inspired by the contrasting nature of her two favorite places - lush, green East Devon and the stunning mountains of Northern Portugal. Ishbel uses natural ingredients including flowers and spices, many sourced and grown by herself. This unique fusion of two countries and the natural soap making products they both provide is a first. Soap ingredients abound in both Devon and Portugal think of rose, English lavender, sea salt, goats milk, oranges and lemons, olive oil and eucalyptus to mention a few. Naturally Made Soaps aim to share this rich joint bounty and in doing so give its users the chance to experience why these two places are so special to Ishbel and her family. Follow her story on the blog <http://naturallymadesoaps.blogspot.com> and visit her visually stimulating and exciting new website www.naturallymadesoaps.co.uk Ishbel hopes that she will eventually be able to run her business from both Portugal and Devon growing and supplying all the ingredients she needs to continue to develop her wonderful range of soaps.
